DIVING TORCH TECLINE STROBE-LIGHT-MINI

INSTRUCTION MANUAL

Thank you for choosing the Tecline STROBE-LIGHT-MINI diving torch.
If you have additional questions about the torch described in this manual please contact us by email: **scubatech@scubatech.pl.**

PURPOSE
The Tecline STROBE LIGHT MINI dive light is designed for use both on the surface and underwater, as a colored marker for position signaling. It is available in blue, white, green, red, and yellow light versions.

USE / BATTERY INSTALLATION

Battery installation
- Unscrew the flashlight head counterclockwise.
- Remove the depleted AAA battery and replace it with a new one. Insert the battery according to the polarity sticker indicating + / –. The positive end should face the flashlight head.
- Screw the head back on clockwise until fully tightened, but do not use excessive force. Tightening turns the light on – to turn it off, unscrew the head about ¼ turn.

Turning On/Off
• To turn on the flashlight, tighten the head clockwise.
• To turn off the flashlight, loosen the head by ¼ turn counterclockwise.
• To activate strobe mode, turn the flashlight on, then immediately off and on again.

SAFETY INFORMATION / RECOMMENDATIONS FOR THE BATTERY
WARNING – Strobe Mode:
Do not look directly at the flashing light – it may cause dizziness, disorientation, or, in sensitive individuals, even an epileptic seizure.
!) Do not leave the torch switched on without supervision.
!) Never unscrew the battery compartment cap while underwater. This will flood the battery chamber and may result in damage to both the torch and the batteries. Such damage is not covered by the warranty.
Do not take the torch underwater with low batteries. Do not mix charged and discharged batteries.

WARNING!
THIS TORCH IS DESIGNED TO OPERATE ONLY WITH AAA BATTERIES . USING OTHER TYPES OF BATTERIES MAY DAMAGE THE TORCH AND SUCH DAMAGE IS NOT COVERED BY THE WARRANTY.

DIVING TORCH TECLINE STROBE-LIGHT-MINI

MAINTENANCE AND STORAGE

- The torch should be thoroughly rinsed in clean fresh water after each use.
- If the O-rings are too loose – they should be replaced.
- O-rings should be lubricated very gently with silicone grease suitable for O-rings.
- All O-rings should be replaced every 12 months.
- The torch should be stored in a dry place at room temperature.

TECHNICAL DATA

- Light options: Red; Green; Blue; White; Orange.
- Beam angle: 360°.
- Modes and runtime: Constant 37 h ; Flash 70 h.
- Waterproof: 150 m.
- Battery: 1 x AAA Alkaline battery.
- Net weight: 25 g
- Dimensions: 19mm (tube) ; 77,5 mm (length)

Note: The above specifications were measured under laboratory conditions in accordance with ANSI/NEMA FL1 flashlight testing standards. Values are approximate and may vary between individual flashlights, battery types, or environmental conditions.

WARRANTY

The product is guaranteed for two years from the date of purchase and is only valid with proof of purchase from the Scubatech/Tecline shop. The guarantee does not cover:

- loss or damage caused by improper use of the torch (including use in chlorinated water without first protecting the torch),
- visual damage caused by intensive use of the torch (scratches on the outer shell),
- damage caused by excessive heat or chemical damage,
- overheating caused by using the torch on a surface for too long,
- damage caused by improper maintenance, storage or unauthorised repairs.

UTILISATION

- Do not throw used or unwanted electrical and electronic equipment into the rubbish bin. When you buy new electrical or electronic equipment in a shop, you can leave your used e-waste at the dealer, making sure, however, that it is of the same type and quantity as the purchased equipment.
- Segregate e-waste by putting it in designated containers.
- By disposing of your device correctly, you are making a contribution to the protection of the environment and human health. Incorrect disposal poses a threat to the environment and human health.
- You can obtain more information about recycling from your local council, city cleaning company.

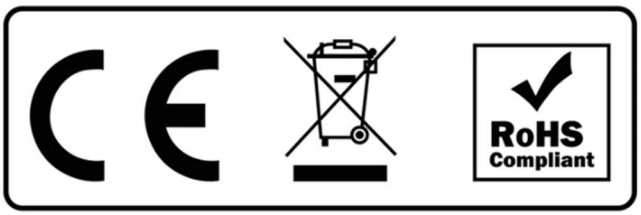

CONFORMITY WITH EU DIRECTIVES

- EMC directive 2014/30/EU
- RoHS directive 2011/65/EU
- EU declaration of conformity - available upon request or at the importer's website.

DIVING TORCH TECLINE STROBE-LIGHT-MINI

PURPOSE OF THE USED SYMBOLS / INDICATORS

- The CE mark confirms compliance with European Union requirements
- The RoHS mark confirms the absence of hazardous substances
- The symbol of the crossed-out rubbish bin indicates that electronic equipment should not be disposed of with the mixed waste.
